## SUBJECT MATTER

A

Agglomeration economies
  analysis of New York environs: case study.279–284
  *see also* Annexation law; Planning
Agricultural real estate
  case study: computation of returns, 1940–1960 comparisons, net rent and capital gains ..... 84–86
  *see also* Brazil; Columbia Basin, Washington; Economic growth; Great Britain; Taxation
Agriculture
  *see* Agricultural real estate; Brazil; Columbia Basin, Washington; Economic growth; Great Britain; Japan; Land ownership; Po River Delta, Italy; Taxation; Tunisia
Annexation law
  study of laws as related to success
    legal factors versus community characteristics .....354–360
    measurements for 'success' determination .....354–358
    ranking of annexation laws .....355
  *see also* Economic base
Appraisal
  *see* Agricultural real estate; Annexation law; Brazil; New York; Economic base; Land use; Mortgage market; Real property tax; Residential land values
Atomic Energy Commission and federal government's patent policy .....237
  *see also* Public utilities

B

Brazil
  Use of air photos for land title papers: case study
    cost factor handicaps .....388
    few recorded titles on file .....387
    minimally feasible method .....391
    rapid increase in population influx .....387
    some successful experiments to date .....388

C

City planning
  *see* Agglomeration economies; Annexation law; Economic base; Housing gap; Italy; Mortgage market; New York; Relocation; Rural-urban planning; Urban planning

Columbia Basin, Washington
economic and social changes: 1950–1965
Grand Coulee Dam size and power .....338
industrial expansion .....336–342
long range benefits of irrigation .....335–346
population change and growth .....341
Construction cycles
*see* Mortgage market
Cooperative farming
*see* Tunisia
